

Press Release

**LABOMAR: NET PROFIT UP SIGNIFICANTLY IN 2020 TO EURO 6.1 MILLION
PROPOSED DIVIDEND OF EURO 0.11 PER SHARE
REVENUES (+26.3%) AND ADJUSTED EBITDA (+27.1%) ALSO ADVANCE
CONSIDERABLY**

- Consolidated **Revenues** of Euro **61.1 million** (+26.3% vs 2019)
- Consolidated **Adjusted EBITDA** of Euro **12.3 million** (+27.1% vs 2019)
- Consolidated **Net Profit** of Euro **6.1 million** (+46.9% vs 2019)
- Consolidated **NFP** of Euro **3.4 million** (Euro 28.7 million in 2019)
- **Proposed Dividend** of Euro **0.11** per share
- **Appointment** of **Claudio Crespan** as new **CFO**
- **Proposal to expand BoD** with new **Director Ugo Di Francesco** (CEO Chiesi Farmaceutici SpA)

Istrana (TV), March 29, 2021 — The Board of Directors of Labomar (AIM Italia - Ticker; LBM), an internationally-focused Italian nutraceutical enterprise, have approved the 2020 consolidated financial statements, reporting a **net profit of Euro 6.1 million, up 46.9% on Euro 4.1 million in 2019**. The Board of Directors shall propose to the Shareholders' Meeting, called for April 28, 2021, **the distribution of a dividend of Euro 0.11 per share**.

Consolidated Overview

The Labomar Group's 2020 Consolidated Financial Statements report:

Consolidated figures (in Euro millions)	FY 2020	%	FY 2019	%	2020/ 2019%
Revenues*	61,1	100,0%	48,3	100,0%	26,3%
EBITDA	11,3	18,5%	9,1	18,8%	24,5%
Adjusted EBITDA**	12,3	20,1%	9,7	20,0%	27,1%
Net Profit	6,1	10,0%	4,1	8,6%	46,9%
Shareholders' equity	38,2		9,9		285,7%
Net Financial Position ***	3,4		28,7		-88,0%
of which Payables for Right-of-Use	2,9		3,6		-21,3%

* 2020 Revenues include - for the first time - the revenues of the Canadian Entreprises ImportFab Inc. for the full year, acquired in October 2019.

**2020 Adjusted EBITDA does not include non-recurring costs of Euro 0.97 million for the listing, while the 2019 figure does not include non-recurring costs of Euro 0.57 million for the acquisition of Entreprises Importfab Inc.

*** The Net Financial Position includes cash and cash equivalents, Bank payables, other financial liabilities, right-of-use payables, dividend payables, unavailable cash in trust and payables for the acquisition of the Entreprises ImportFab Inc. business unit.

Labomar's Chairman and Chief Executive Officer Walter Bertin states: **"The 2020 results are truly remarkable and beat both our own and analysts' expectations.** We are extremely satisfied with this performance - which allows us also to reward our shareholders with a **dividend of Euro 0.11 per share** - and particularly to achieve such in a year as complex as that marked by the COVID-19 pandemic. The challenges posed by the health emergency have driven us to come up with new solutions to satisfy the demands of an evolving market and of our customers. Our long track record of **R&D investment** has expanded our customer base and improved product satisfaction levels, enabling us to tackle new market segments and lay the foundations for our future growth".

2020 KEY ECONOMIC AND FINANCIAL HIGHLIGHTS

The Financial Statements have been drawn up as per IFRS and have been audited.

Group earnings

Consolidated figures (in Euro millions)	FY 2020	FY 2019	2020/ 2019%
Revenues	61,1	48,3	26,3%
EBITDA	11,3	9,1	24,5%
EBITDA Margin	18,5%	18,8%	
Adjusted EBITDA	12,3	9,7	27,1%
Adjusted EBITDA Margin	20,1%	20,0%	
Net Profit	6,09	4,1	46,9%
Adjusted Net Profit *	6,07	4,6	32,9%

* 2019 and 2020 Adjusted Net Profit is the net profit recalculated to reflect the tax effect of the above-indicated non-recurring costs and for 2020 only the Patent Box Benefit for the preceding years.

Labomar Group revenues in 2020 totalled Euro 61.1 million, up 26.3% on 2019 and build further on the growth delivered by the Group over recent years. The figure includes - for the first time - the revenues and margins of the Canadian Entreprises ImportFab Inc. for a full year, acquired in October 2019.

Revenues of the parent company Labomar SpA in 2020 grew considerably on 2019 (+10.2%) as a result of the strategy to focus on consolidating business with the existing customer base and forge new relationships with the major pharma players - although amid a challenging general environment and leveraging on the wealth of experience and know-how acquired through research and development investment over the years. **Labomar**

keenly understands the demands of a substantially new marketplace facing the challenges of restrictions on movement and a lack of opportunities for supply chain operators to organise events and meetings.

Labomar's **R&D department** has continued to create original formulas which respond to customer demands and to provide scientific marketing consultancy. New patent development also continued: at the end of April 2020 a new patent was filed and work was undertaken on a new patent which is expected to be filed in H1 2021.

Lean organisation principles have continued during the year, both for production and the general organisation.

The subsidiary Entreprises Importfab Inc. launched during the year a long-term machinery and process upgrade plan, increasingly aligning the company with the parent company's standards. Personnel restructuring and efficiencies were a key focus - particularly in the production field. We also highlight that at the beginning of 2020, as a result of the pandemic and in line with the relative government measures, production of functional cosmetics was not permitted (temporarily suspended between March 24 and May 4, 2020). The **subsidiary Entreprises Importfab Inc.** however still **contributed Euro 9.3 million to parent company revenues**.

2020 Labomar Group EBITDA was Euro 11.3 million (Euro 9.1 million in 2019), reporting an 18.5% margin and significantly increasing (+24.5%) on the previous year. **The Adjusted EBITDA improvement was even stronger - up 27.1% to Euro 12.3 million**. The figure does not include non-recurring costs for the AIM Italia market listing of Euro 0.97 million.

The Net Profit totalled Euro 6.1 million (Euro 4.1 million in 2019), reflecting a significantly lower tax charge than the previous year due to considerable investment benefitting from tax incentives, in addition to the patent box agreement and partly concerning previous years.

Group Balance Sheet overview

Consolidated figures (in Euro millions)	FY 2020	FY 2019
Net Fixed Assets	35.5	33.5
Net Working Capital	6.2	5.1
Net Capital Employed	41.7	38.6
Shareholders' Equity	38.2	9.9
Net Financial Position	3.4	28.7
Source of funds	41.7	38.6

The Group's equity structure is considered solid.

Admission to trading on the AIM Italia has brought in new funding, as evident from the share capital increase and the recognition of the share premium reserve for a total of Euro

24.8 million (share premium of Euro 26 million, net of listing costs of Euro 1.2 million).

The Net Financial Position, a debt of Euro 3.4 million, comprises the bank exposure, the net debt for leasing and rental contracts, net of cash and cash equivalents and also reflects the investments and the corporate transactions executed.

2020 SIGNIFICANT EVENTS

The parent company undertook the following transactions:

- July 2020:
 - acquisition of industrial land and property located in Via Filzi ad Istrana (TV), on which the **new Cosmetics production hub** will be built. The property acquired from the company Unilab Immobiliare Srl was initially earmarked for this project.
- August 2020:
 - approval by the Shareholders' Meeting of the **proposal to list company shares on the AIM Italia;**
 - approval by the Shareholders' Meeting of the proposal to extend the corporate scope, amending the By-Laws **to enable Labomar to qualify as a Benefit company;**
- October 2020:
 - initial trading on the AIM Italia market.

Finally, in July 2020, the company Zero Srl (at December 31 entirely held by Project Zero Srl, in turn held 5.56% by the parent company) saw the entry of an overseas investor undertaking a 12.5% stake in Zero Srl through contributing Euro 4.25 million by means of a share capital increase. The transaction has the strategic objective of developing together with the new Shareholders - key figures at a Russian Multinational and pre-packaged salad distribution market leader - the initial vertical farming plant located close to the packaging and harvesting centres and owned by the same company.

This initial transaction was followed by another in December 2020, with Project Zero Srl selling to the same party an 8.75% stake in Zero Srl for consideration of approx. Euro 2.5 million. The Russian investors in 2020 therefore overall invested approx. Euro 6.7 million in Zero Srl for a total stake of 21.25%.

SUBSEQUENT EVENTS

The Group in the initial months of 2021 has continued operations as previously, although clearly impacted by the COVID-19 outbreak - as has the entire domestic and international economy.

Specifically, the parent company and the Canadian subsidiary are undertaking production in line with the applicable local rules to contain the pandemic.

The parent company reports the following significant events:

- January 2021: the company signed a **major new commercial agreement with Bayer**, a leading pharmaceutical multinational which it has been collaborating with for over six years. This specifically concerns an exclusive partnership for 4 products from the recent extension to Bayer's Aspi Gola® line;
- February 2021: the company **signed an agreement with the Tax Agency to avail of the Patent Box tax break**. The agreement covers the 2016-2020 five-year period with a total tax benefit for the Group of approx. Euro 0.9 million: this was reflected in the 2020 financial statements and is expected to continue for the 2021-2025 five-year period on the basis of the agreement signed;
- March 2021: the company drew up its **first Annual Impact Report**, in accordance with the regulation governing the adoption of Benefit company status.
- March 2021: the company presented an application to the Ministry for Economic Development to avail of the benefit as per Law No. 205 of December 27, 2017, paragraphs 85 and subsequent, having listed on a regulated market / multilateral trading system, for incurred and documented consultancy expenses, in the form of a tax credit for an amount of Euro 0.5 million.

OUTLOOK

Despite the contingent difficulties posed by the ongoing COVID-19 pandemic, the segment - as for the wider food and pharmaceutical sectors - has continued to return the growth achieved over the preceding years. **The directors therefore expect the Group to continue to grow both on the domestic and overseas markets.**

PROPOSAL FOR THE ALLOCATION OF THE NET PROFIT

The Board of Directors proposes the following to the Shareholders' Meeting:

- the approval of the Separate Financial Statements of Labomar S.p.A. at December 31, 2020, which report a net profit of Euro 4,506,264;
- to distribute an ordinary dividend of Euro 0.11 per qualifying share.

The dividend coupon date is May 10, 2021 with record date of May 11, 2021 and payout on May 12, 2021.

APPOINTMENT OF NEW CFO AND EXPANSION OF BoD

Claudio Crespan joins the team as Chief Financial Officer following the resignation of Davide Munaretto, who embarks on a new professional pathway. Mr. Crespan is highly qualified for the role, having begun as a controller at a retail enterprise and thereafter at a leading Audit Firm. Since 2005, he has worked at international enterprises, undertaking

increasingly challenging administrative, financial and operating control positions, while coming to the position of CFO for the last 5 years.

At the Board meeting, the Chairman also proposed to submit to the Shareholders' Meeting **to increase the number of Board members from 6 to 7**. The appointment of a director representing the majority shareholder **Mr. Ugo Di Francesco** shall therefore be submitted for the approval of the Shareholders' Meeting. Since 2011, he has been the Chief Executive Officer of Chiesi Farmaceutici Spa and is a manager bringing over 30 years of pharmaceutical market experience.

His curriculum vitae will be available on the company website.

CALLING OF THE LABOMAR SPA SHAREHOLDERS' MEETING

The Separate Financial Statements at December 31, 2020, approved today by the Board of Directors of Labomar Spa, shall be submitted to the next company Shareholders' Meeting to be held on April 28, 2021.

The following Group financial statements, drawn up as per IFRS, are annexed:

Annex 1 - Reclassified Consolidated Balance Sheet

Annex 2 - Reclassified Consolidated Income Statement

Annex 3 - Consolidated Cash Flow Statement

Annex 4 - Parent Company Reclassified Balance Sheet

Annex 5 - Parent Company Reclassified Income Statement

This press release is available on the Labomar Spa website at www.labomar.com, in the Investor relations / Results and Press Release's section.

Labomar Profile

Founded by Walter Bertin in Istrana (province of Treviso) in 1998, Labomar is a CDMO (Contract Development and Manufacturing Organization) engaged in the development and production of food supplements, medical devices, foods for special medical purposes and cosmetics for third parties. Its research team creates, develops and manufactures high added-value and innovative content nutraceutical products. Many of the supplements produced by Labomar leverage proprietary technologies which boost the bioavailability of the active ingredients, modulate their gastrointestinal absorption and improve their taste. Over more than 20 years, Labomar has built a business model which sets it apart from its competitors and generates value for all stakeholders, providing a high quality and productivity standard full service. The company boasts a well-structured and cutting-edge research and development department, a commercial team which reacts quickly to market demands and a high level of product differentiation thanks to its proprietary patents and formulas.

Labomar sincerely believes in operating as a business centred on sustainability and the well-being of the individual, the environment and the community. It has therefore amended its By-Laws to become a Benefit company. This new legal status, introduced in Italy in 2016, formalises the decision to develop a responsible, sustainable and transparent development model, which marries operating-earnings objectives with social and environmental aspects.
